## GREAT LOOKS, GREAT SOUND, GREAT VALUE!

Audio technology is really making big strides, and it's obvious here. The Altec Lansing VS2421 is an incredibly compact, value-priced system that gets its powerful, full-spectrum sound from custom-engineered, dual 2.5" speakers, plus a thin yet powerful 5.25" subwoofer that fits easily under your desk. The system's size is ideal for small spaces – and you can even mount the satellites on your wall. Controls are right on the front of the speaker. A handy headphone jack is right nearby, and thanks to a microphone built into the right satellite, you can use the VS2421 for internet communications. And there's even a secondary input jack that lets you connect your MP3 or CD player while still linked to your PC.

## VS2421

### High-quality stereo

Custom-engineered full-range 2.5" ported speakers deliver clean, full-spectrum sound with outstanding accuracy.

### Space-saving subwoofer

Delivers remarkably big sound from a slim 5.25" speaker that shakes the room without taking up a lot of room under your desk.

### Built-in microphone

Gives you talk-back capabilities for Internet communications (VoIP) and interactive gaming. Features automatic feedback cancellation.

### Small footprint

Compact satellite speaker design leaves plenty of room on your desktop.

### Wall-mountable design

Simply remove the base and use the keyhole on the back of each satellite speaker.

### Ultra-convenient controls

Wired controller offers easy fingertip control of volume, treble, and mute functions. Bass control is right on the subwoofer.

### iPod / MP3 Player Jack

Connect your iPod, MP3 player, or CD player at the same time as your computer.

### Headphone Jack

For private listening.
